

Oak Green School Curriculum Newsletter
Little Owls & Eagle Owls
Spring 2, 2026

Little Owls

This term we have been learning all about dangerous dinosaurs, puddles and rainbows.

One of our favorite activities was this one where we could mix colours using our fingers. We guessed which colour it would make and we learnt new words to add to our vocabulary.

Eagle Owls

The children really enjoyed our topic 'Dangerous Dinosaurs'. A highlight was our themed maths scavenger hunt in the outdoor environment. The children also loved talking, and learning, about Eid and how it is celebrated, and created their own Eid decorations.

Forest School

It has been lovely to watch Winter turn into Spring and see all the changes that brings, like blossoms, new fresh insect life and even some sunshine! It has been very exciting to look for different kinds of ladybirds and count their spots.
