

Oak Green School Curriculum Newsletter
Little Owls & Eagle Owls
Summer 1, 2026

Little Owls

We have had an incredible term. We have new wonderful children settling well into Little Owls Nursery. We have learnt what sunflowers need to grow and we have even planted our sunflowers and have been looking after them daily. We have also been amazingly lucky to have a stay and play with real minibeasts and was able to see a lizard, dart frog and even a tarantula. It was amazing!!

Eagle Owls

We have had an amazing time learning and exploring together. We learned about growing, what plants need to survive, and different life cycles. We also welcomed a few new children into our class, who have settled in well and are becoming part of our Pre-School family. The children enjoyed learning about families, friendships, and the importance of being kind and caring towards one another. We explored signs around us, including supermarkets and coffee shops, and talked about places we see and visit with our families.
