

Oak Green School Curriculum Newsletter

Year 1

Spring 2, 2026

English

This term, we have focused on the book 'Where The Wild Things Are' -about a boy who becomes king of the Wild Things. The children have written some amazing descriptions and used tricky words like 'gnashers' and 'mischievous' to write their own version of the story. They have also focused on spellings of words with the 'er', 'ing', 'est' and 'ed' suffixes.

Being Healthy with Jigsaw Jack

PSHE

The children have been learning about being healthy. We have looked at how to make healthy choices with diet and exercise. The children were great at deciding which foods were healthy and which were not. The children say how to stay clean and healthy, ensuring they wash their hands, bath/shower regularly and clean their teeth.

Science

The children have been learning the names of the human body parts and how these body parts are associated with our 5 senses. To explore how we use our senses the children have been on a sensory walk observing the sounds and sights around school. They enjoyed a tasting session and were able to identify the taste of sweet, sour, salty and bitter.
