

Oak Green School Curriculum Newsletter

Year 1

Spring 2, 2026

Maths:

In Maths the children have expanded their knowledge of place value as well as addition and subtraction from the Autumn Term and are now working with numbers to 20. They have learnt a new number bonds song to 20 to help them add and subtract to 20. We have also been doubling numbers as well as comparing, ordering and estimating numbers on the number line.

We have been learning about Place Value, Addition and Subtraction

Skill
Dynamic Balance

PE:

Following real PE the children have developed their cognitive skills. They have completed physical activities to develop their listening skills so they can understand and follow instructions. The children reflected on their achievements and identified some of their physical strengths. We have also taken part in Drumba sessions combining drumming and aerobic movement to music.

Computing:

In Computing, the children have been learning how to use Bee-Bots and exploring simple programming through algorithms and directions. They had lots of fun giving the Bee-Bots instructions and testing their ideas. The children also challenged each other to create different routes and alternative paths around a map.
