

Oak Green School Curriculum Newsletter

Year 3

Summer 1, 2026

In English, the children have been reading the book, *Egyptology* and have been very busy writing their own Egyptian mystery narratives including prepositions, word families and adverbs.

In science, we have been learning about the functions of different parts of flowering plants. We have been investigating what happens to a plant if it loses one of the elements required for life - our plants without water did not survive. We enjoyed looking at how plants spread their seeds and turn into new plants too!

In history, the children have started our 'Emperors and Empires' unit. This is focused on the Romans. The children have started to look at Roman hierarchy and how the Roman Empire conquered different countries.
