

# Oak Green School Curriculum Newsletter

Year 5

Summer 1, 2026

In history, we launched our Ancient Greek topic by transporting back to 490 BC when Persia invaded Greece. We took on typical roles found in the Athenian Agora (market) at the time, serving as wax tablet makers, pottery painters and jewelers. We explored how the Athenians prepared for and engaged in battle and finally celebrated their victory!

In Spanish, we have been learning how to pronounce different foods and drinks. We have learnt how to ask for food when visiting a café, and how to ask for the bill.

In science, we have explored changing materials. We have learned how to group and classify materials based on their properties. For example, we investigated a range of materials and identified whether they were opaque, flexible or waterproof.
