

Oak Green School Curriculum Newsletter
Year 5
Autumn 1, 2025

We have been eager historians this half term, learning all about the ancient civilization of the Shang Dynasty. We looked at the process of making jade and silk and how this was used within the dynasty.

In art this half term, we have been looking at tints, tones and shades. We have explored mixing colours to create depth within our painting. We have used this knowledge to create our own atmospheric landscapes.

To link our history and art, we have practised casting techniques to then create a relief form of a traditional bronze Taotie, inspired by the Shang dynasty civilization.
