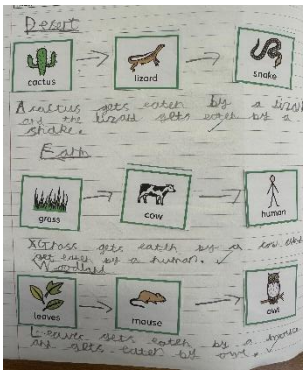
Oak Green School Curriculum Newsletter

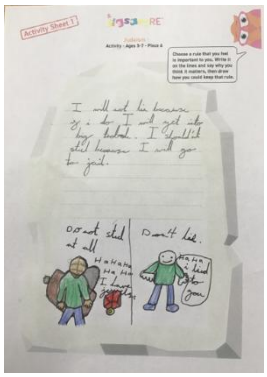
Year 2

Spring 1, 2026

Science

In science, we have been learning about animals and their habitats. We have thought about the suitability of habitats and food chains that live within them. We have enjoyed the outdoor learning opportunities within this topic and been on a hunt around school to see what habitats and microhabitats there are.



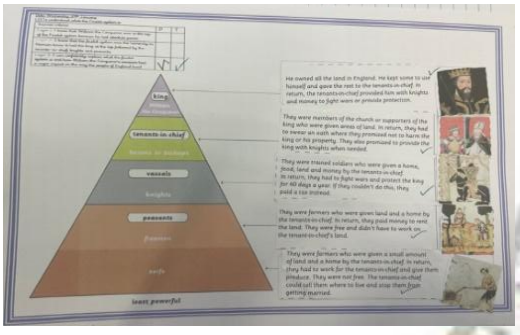


RE

This half term we have been looking at aspects of the Jewish faith in RE.

We looked at how Judaism began and the importance of the Ten commandments.

We looked at the life of Moses & Abraham and how they are important to Jewish people.

History


In history, we have been learning about significant monarchs. We know what it means to have absolute power and power at all and have learnt about how all the different monarchs reigned during their time on the throne. We are very much looking forward to our Kings and Queens day on Wednesday 11th March.
