Year 2

Autumn 2, 2025

Geography

In geography we have been learning about similarities and differences between different places and exploring their physical and the human features. We used maps, atlases and information texts to find things out. We plotted the equator on a map and thought about how the equator effects the climate.

D&T

This half term we have been looking at remarkable recipes. We have explored lots of tools that can be used for cooking, how they work and what they are for. We then used several of these tools to create Eton Mess and a yummy vegetable casserole! We have practiced skills like slicing and chopping.

Maths

In maths we have been learning how to add and subtract 2-digit numbers using a column method. The children have learnt how to complete 2D shapes using lines of symmetry. They have also practiced counting faces, edges and vertices on 3D shapes.
