Year 2

Summer 2, 2026

Art

This term year 2 have been learning about the visual elements of different flowers, then creating our own flower sculpture in the style of Artist Yayoi Kusama. A big thanks to all the parents that recently donated materials for our projects to support the children's learning.

Shape
Two-dimensional

Form
three-dimensional

Colour
using colour of the thing
you're representing

Pattern
A design that is repeated

Science

This term in Science, year 2 have taken part in sustainability lessons, learning about the important role wildlife plays in supporting human life, and how we can give back to help protect and care for the natural world. The children enjoyed exploring real-life examples around school, such as observing the chickens in the courtyard, spotting home-grown vegetables, and exploring our wild garden areas, bird boxes, and bug hotels.

Computing

This term year 2 have been using the program Scratch Jnr to make interactive quizzes for their friends. They each thought of their own yes or no questions such as 'who lives here' which linked to their sprite. They then added on a background before testing each other's quizzes out.
