

KS1

Geography is the study of the  
Earth's physical properties and  
how they are affected by  
human activity.

## KS2

Geography is the study of the shape and features of the Earth's surface, including countries, vegetation, climates and how humans use the world's resources.

**Physical Geography** is the study of the physical features of the Earth, such as oceans, mountains, rivers, coastlines, forests and plant life.

**Human Geography** is the study of the interaction of people with place, each other and the environment.
