Wellbeing Action Group

Dear Parents and Carers,

Oak Green has recently formed a wellbeing action group. We are hoping to involve as many parents as possible, to learn their views on how to improve and support mental health and wellbeing of themselves and their child/children.

Representatives from across the school met in school this week for our first meeting. We discussed whether home learning is out dated and what impact it has on the pupil's wellbeing. We are currently preparing a questionnaire to ask for your thoughts on this.

The next meeting will be held on **Friday 26th May at 9am**, and we would like to invite you to attend. We will be discussing the feedback from the parent **homework** questionnaire and asking for parent's views on any topics they wish to raise for discussion.

Our third meeting will be at **9am on Friday 23rd June**. We will be discussing the **cost of trips and non-uniform days**. The final meeting before the end of the summer term will take place on **Thursday 6th July**. During this meeting, we will discuss **attendance** and how school can support you with any difficulties surrounding this.

These meeting are very informal and relaxed and offer an excellent opportunity to have your voice heard within the local community. Please contact Mrs Mourier via the office if you are interested in being involved with this.

Kind regards,

The Wellbeing Action Group
