19/10/2026

Dear Parents/Carers,

We will be fulfilling a new healthy living initiative to assist children with understanding the importance and developing independence regarding teeth hygiene and brushing their teeth.

Children will be taught exactly how to brush their teeth independently through the NHS guidance in school as part of their personal, social and emotional development learning. To do this, we will be providing each child with their own toothbrush and toothpaste and facilitating the teaching of teeth brushing in classes across Early Years.

If you'd like to know more, please see the NHS website for more information: https://www.nhs.uk/live-well/healthy-teeth-and-gums/taking-care-of-childrens-teeth/

Thank you for your support regarding this new initiative.

Miss Hague
Assistant Headteacher and Early Years Lead
