Autumn 1, 2026

Talk Through Stories

We thoroughly enjoyed reading several stories. The first one, “Elmer” was about being different and how to celebrate it. The second was called “Little bit brave”, where a little rabbit plucked up his courage and had an amazing adventure. We discussed lots of new words from those books and now we can use them in our speech.

Cornerstones

This term, we’ve had an exciting time exploring the world around us. As part of our learning, we took a close look at faces and learned how to draw self-portraits. The children focused on the unique features that make them special such as freckles, dimples, and glasses. We explored different types of homes such as cottages, semi-detached houses, flats, and terraced homes. The children were encouraged to make connections to their own homes and share their experiences, helping them understand and celebrate the diversity in the world we live in.

WOW

For the children’s first WOW day we celebrated the continent of Europe. The children made pizzas from Italy, danced traditional folk dances, sung and spoke in different languages and did lots of arts and crafts from European countries. The children had the best day and were able to have lots of new experiences!
