Oak Green School Curriculum Newsletter

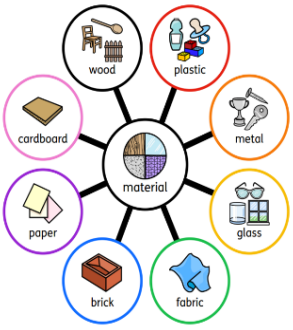

Year 2

Autumn 1, 2026

History

In history, we have been learning about significant people and the impact that they have had on people's lives. Through open discussions we have found out what each person has done and whether they have changed people's thinking. We then ranked them by importance and gave our personal opinion for our choices.

Science

we have been looking at aterials and their properties. looked at the difference natural and man-made materials and created pictures using only erials on the playground. We predictions and tested the materials. We have used to see if we can identify materials just by touching them.

P.E

The children have been developing their footwork and one leg balance through focused skill development sessions and competitive games. The children have also learnt how to control their body when rolling and balancing.

Coordination

Footwork

Static Balance

One Leg Balance
