05/11/2026

Dear Parents and Carers,

On Tuesday 8th December, Year 6 will be having an exciting visit from the wonderful team at Science Oxford with their Practical Engineering and K'nex workshops.

During their visit, each class will have a 90-minute workshop with the Science Oxford team to take part in problem solving to create a handheld working vacuum cleaner and a 90-minute workshop becoming civil engineers and building a working bridge. The rest of the school day will be packed with lots of exciting scientific themed activities to bring out the children's scientific thinking.

We are able to offer this visit for a contribution of £6. **Please pay via ParentPay by Friday 27th November 2026**

As this visit is taking place in school and during the school day, our morning register and home time will be the normal times. Additionally, lunchtimes will be as normal.

Yours Sincerely,

Mrs Mynott, Mrs Davis, Mrs Adegbulugbe and Miss King
