

Oak Green School Curriculum Newsletter
Year 4
Autumn 2, 2024

In English, we have been reading 'Leaf' and have written narratives based on a polar bear who gets stranded in the woods. We've also worked hard to write our own animal information reports about polar bears.

In geography, we have been learning all about the continents of North and South America. We have investigated the different climates of these continents- did you know, the USA has a total of 4 climate zones! In particular we enjoyed learning about the different countries like Brazil and Canada and what it is like to live there.

Our food discovery journey has been continuing, we have done some work in the garden planting vegetables and 4A have held their market. They sold warm apple juice, fruit kebabs and a wide variety of fruits and vegetables.
